OPHTHALMOLOGY & YOU!

Tuesday July 14, 7:00pm

(Online Registration Open)

Associate Professor and Director of Neuro-Ophthalmology at Northwell Health, Dr. Pomeranz presents an informative lecture discussing common issues affecting the eyes including: blurred vision due to needing glasses or contact lenses, glaucoma, cataracts, macular degeneration and diabetes. After the presentation, Dr. Pomeranz also welcomes questions from the audience about eye disease or eye care.
