Your Ancestry and Your DNA: Meet Your Family!

An Online Workshop
You may bring your own laptop or iPad to work on; 10 library laptops are available for the first 10 patrons to request them (call x304).

Wouldn’t you like to know more about your family’s roots?
Join us to explore:

- Get the most out of your ethnicity estimate with DNA as you trace your ancestry.
- Basic blank genealogy charts will be provided to all attendees to help you start the adventure of your family history.
- Learn how to search online for valid ancestry records using online sources.
- Even though the focus of the workshop will be ancestry.com, other online genealogy sites will be discussed.

The program will be led by lecturer Bobbi Benigno, who has traced lines of her family back to 1300, as well as discovered mysteries within her chart.

Tuesday, July 27, 6:45pm
Online registration opens July 7, OD July 18
